

# — Motif BeefWorks™ Plant-Based Burger Patties and Grounds

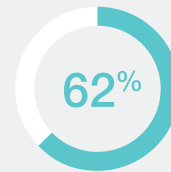

**Menu what matters to consumers** – an authentically meatier experience, from plants. Made with our breakthrough taste and texture ingredients, Motif BeefWorks™ Plant-Based Burger Patties and Grounds have more of the authentic beef flavor and eating experience that consumers want. Combine that with the superior cooking and handling performance needed back of house and you have a product that elevates your business. Our products are vegan, gluten free and are made in the USA.

“  
Motif gave us the flexibility to produce menu options that fit perfectly into our cooking platform and gave our guests an elevated plant-based experience.”
